Dear friends and sponsors of
HopeHouse *Sawatdi*,

The year 2022 was full of emotions and incidents. Thailand finally decided to open the country without restraints on July 1 of this year; masks are still relevant, despite a lack of obligation. However, being a long-term oriented foundation, with long-term support of our students, we obviously care about their health and their future.

What a joy to learn that one of our women students, who graduated in architecture, has moved to Japan and that another student is now in a management position in an international Group near Bangkok. Both of them were sponsored by the Foundation during High school and university and were regular and diligent students in our English classes.

During Covid, we visited some remote female students in Ubon Ratchatani province to provide for their financial needs.

We also decided to sponsor another elementary school with 159 children in Ban Tadserm, as well as the Nong Bua Lamphue Primary School with 106 pupils.

These elementary schools have two teachers whom we have known for 12 years, BOW and FERN. Some of you may remember the two girls as young as 16 years old at Nadee School - where the Hopehouse Foundation began! Today, at 28, they are English teachers. And in turn, after having been helped, they are now helping the Foundation. What a great satisfaction and joy for us, this sweet transfer of power, based on mutual trust and motivation. A beautiful story! Made possible by your precious help throughout the years! THANK YOU.

Dr. Gilles Bernard,
Director of the Foundation

Dear Hopehouse Foundation

I, Ms.Kanyanee Sohat, Nickname PLA, have completed my Bachelor degree of Science in Public Health with a Major in Environmental Health from Kasetsart University with first-class honors.

I would like to express my gratitude to Hopehouse Foundation's continuous support and inspiration on my education. As a Bachelor's degree graduate, it is one of the most proud moments of my life and my family. Without your scholarship support, I would never have become successful in my education. I am highly appreciating all the opportunities that I have been given over the course of 4 years.

I pledge to dedicate myself as a good person and continuously contribute to the community.

On the left, a lovely example of the «Thank You» letters we regularly get from our students having successfully graduated from good Thai universities – often with distinction !

One of our best students, PLA has been sponsored during the 4 years of university. She has benefited not only from our English lessons, but also from moral and financial support of the Foundation throughout.

She is so grateful to all of you. And we are very proud of her.

It is heartwarming - proof of the impact the Foundation can have on the lives of young people!

In 2022, a total of 668 students in Thailand and Laos have benefited from your generosity and kindness.

THANK YOU

Ernst Z'Graggen
President
